REPORTED IMPACT SNAPSHOT | GAZA STRIP

18 November 2026 at 15:00

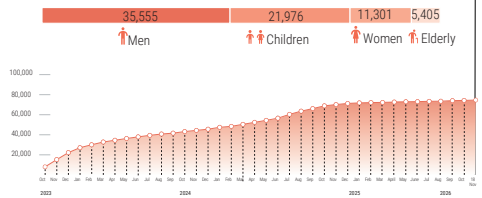

Disclaimer: Figures that are yet-to-be verified by the UN are attributed to their source. Casualty numbers have been provided by the Ministry of Health (MoH) and the Israeli authorities. The fatality breakdowns currently cited are those that the MoH in Gaza has fully identified as of 7 October 2026 out of the higher number of casualties they report. The latest casualty updates are also available on the Health Cluster's Unified Dashboard.

REPORTED CASUALTIES (Cumulative) as of 18 November 2026

Palestinians*

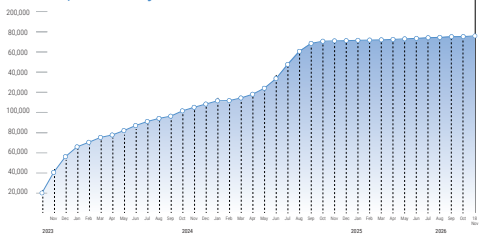

74,710
Reported fatalities include

74,237 identified fatalities as of 7 October 2026 as:

* Source: MoH Gaza

176,131
Reported injuries

* Source: MoH Gaza

Israelis**

Israel

Over **1,200*****
Reported fatalities

1,162 identified fatalities, including at least 33 children

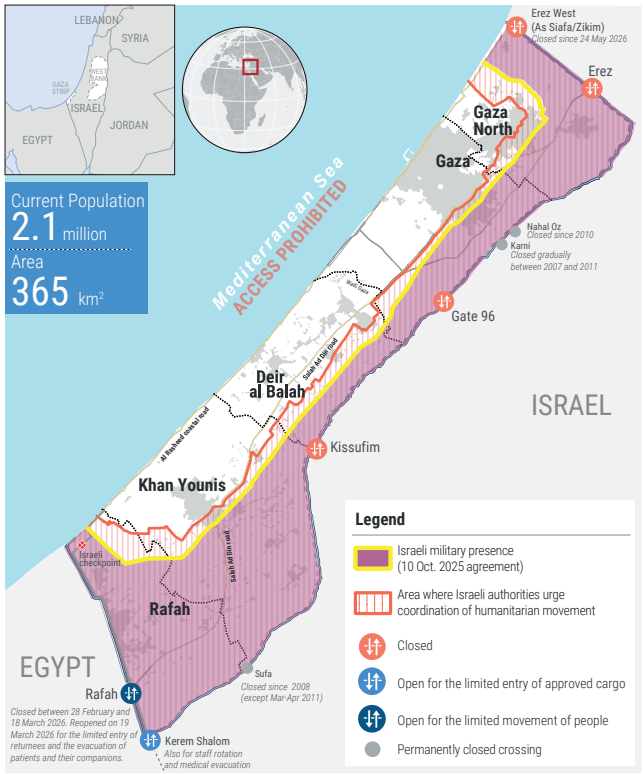

~5,400
Reported injuries

Gaza****

474
Reported fatalities

3,004
Reported injuries

** According to Israeli media citing official sources.
*** This includes fatalities on 7 October and the immediate aftermath, including foreign nationals.
**** The reported Israeli casualties are soldiers killed or injured since the start of the ground operation (source: Israeli military website).

PROTECTION

598 Aid workers killed, incl. at least

By organization type

>1,700
Health workers killed, including some also counted under aid workers above
(source: MoH, as of 7 October 2025).

145
Civil Defence staff killed while on duty
(source: PCD)

262
Journalists and media workers killed
(source: PJS, as of 30 June 2026)

- Nearly the entire population, including over **one million** children, is estimated to require protection services and mental health and psychosocial support (Flash Appeal, December 2025 and UNICEF, December 2025).
- **60,000** children have lost one or both parents (source: UNICEF, October 2026).
- **>918,000** people are estimated to be living in close proximity to identified explosive ordnance threats (source: Protection Cluster, as of September 2026).
- **280** people were killed and **1,175** were injured in explosive ordnance-related incidents since October 2023 (source: Protection Cluster, as of September 2026)

WATER SANITATION AND HYGIENE*

- **85%** of assessed households faced moderate-to-high water insecurity in the 30 days prior to mid-October.
- **66%** had drinking-water access below the minimum threshold of 6 litres per person per day, while **34%** had total water access below 15 litres per person per day.
- **84%** reported barriers to accessing toilets or latrines.
- **45%** observed sewage or sludge, and **28%** observed solid waste piles within 10 metres of their shelters.
- **52%** of assessed households reported skin diseases in the 30 days prior to mid-October.
- **92%** of assessed households reported soap availability at their shelters.
- **98%** of key informants reported barriers to accessing hygiene and non-food items, primarily due to insufficient distribution coverage and high costs.

NUTRITION*

- **>2,000** children aged 6-59 months were admitted for malnutrition treatment in October including over **330** with Severe Acute Malnutrition (source: Nutrition Cluster).
- **30%** of infants and young children under two years achieve minimum dietary diversity.
- **7.2%** of pregnant and breastfeeding women found to be acutely malnourished.
- **12.2%** of infants and young children under five affected by stunting, indicating prolonged nutritional deprivation.
- **~74,200** children aged 6-59 months and **~24,600** pregnant and breastfeeding women are expected to require nutrition treatment or support between May 2026 and April 2027. These include **>11,400** severe cases among children (source: IPC, 23 July 2026).

*Source: Nutrition Cluster SMART survey as of July 2026, unless otherwise noted.
**These figures reflect recent updates from partners.

EDUCATION*

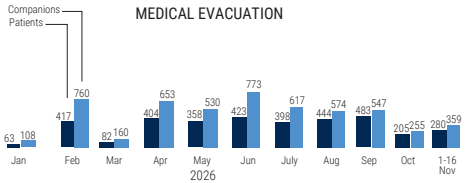

- **~771,200** preschool (114,000) and school-aged (~657,200) children in Gaza require education support for the 2026/2027 school year.
- **>46,500** children had their education interrupted due to the closure of learning spaces in 2026.
- **~200,000** children without access to structured learning.
- **~570,000** preschool and school-aged children are enrolled in temporary learning spaces, including private and community-led learning spaces (source: Education Cluster, as of September 2026)
- **~93%** of school buildings (526 out of 564) will require full reconstruction or major rehabilitation to be functional again, as of 11 October 2025.
- **>63** university buildings destroyed (source: MoE, 12 August 2025).

*Source: Education Cluster Situation and Advocacy Paper, as of September 2026, unless otherwise noted.

HEALTH*

- **30** Emergency Medical Teams (EMTs) including **104** national and **85** international personnel, as of 18 Novemberr 2026.
- Between 4 and 16 November, **174** patients, including **66** children, and **235** companions were evacuated via Rafah and Kerem Shalom crossings.
- Since the ceasefire agreement was announced on 10 October 2025, **3,870** patients and **6,260** companions were evacuated via Rafah and Kerem Shalom crossings, with support from WHO. Of these, **2,994** patients and **4,350** companions were evacuated via Rafah since it reopened on 2 February 2026 (as of 16 November 2026).

MEDICAL EVACUATION

REPORTED DAMAGE*

- **92%** of assessed establishments in the commerce and industry sector are destroyed or damaged.
- **74%** of the road network is destroyed and **13%** is damaged.
- **88%** of above-ground WASH assets and **76%** of underground networks are damaged.
- **83%** of the Gaza Strip's coastal zone is fully or partially destroyed
- **76%** of assessed cultural and heritage sites are destroyed or damaged.
- **90%** of energy infrastructure including electricity distribution network and associated assets are destroyed.
- **82%** of all structures are destroyed or damaged (source: UNOSAT, as of 16 June 2026).

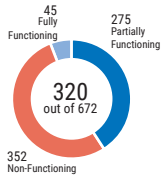

*Source: Gaza Strip RDNA as of October 2025, issued in April 2026, unless otherwise specified.

SHELTER*

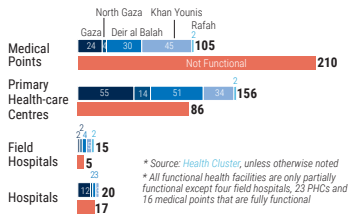

- **1.98 million people (94% of the population)** estimated to need shelter and NFI assistance, including about **1.2 million people (58%)** facing Critical (Phase 4) or Catastrophic (Phase 5) shelter conditions.
- **65%** of assessed households were living in tents or makeshift shelters, of which **54%** were in poor or very poor condition.
- **76.6%** of housing units (371,888 out of 485,361) destroyed or damaged (source: UN, EU and the World Bank, Gaza Strip RDNA as of October 2025, issued in April 2026).
- **>950,000** people are estimated to live in **989** displacement sites at medium or high flood risk, including over **400,000** people in **451** high-risk sites (source: Shelter Cluster, Site Management Cluster and IOM Gaza Flooding Risk Assessment as of September 2026).

*Source: Shelter severity and household needs assessment, August 2026 (data collected in June 2026), unless otherwise specified.

HEALTH SERVICES FUNCTIONALITY** *(as of 18 November 2026)*

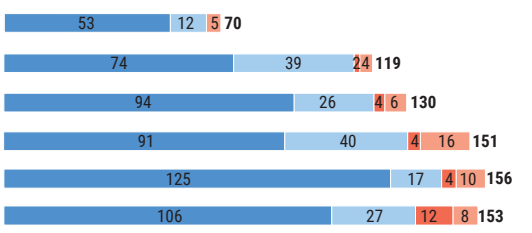

Includes hospitals, field hospitals, PHCs, medical points, ambulance centres, emergency centres and mobile clinics.

* Source: Health Cluster, unless otherwise noted
* All functional health facilities are only partially functional except four field hospitals, 23 PHCs and 16 medical points that are fully functional

HUMANITARIAN ACCESS

Missions requiring coordination with the Israeli authorities

Facilitated: CLA accepts a facilitation request and the movement on the ground is not impeded.
Impeded: CLA accepts a facilitation request but the movement is blocked or delayed on the ground, resulting in some missions being aborted or accomplished partially.
Denied: The Israeli Coordination and Liaison Administration (CLA) rejects a facilitation request.
Withdrawn: Humanitarian organizations cancel their facilitation request due to logistical, operational, or security reasons.
