West Bank: Reported flying checkpoints

The Enclosed Areas in the Gaza Strip:

As-Seafa:

- Since 13 February 2005, the IDF has permitted Palestinians aged 30 and older residing in As-Seafa to pass in and out without any prior coordination; males and females aged between 16 and 30 are still required to have 48-hours prior coordination. The gate is open two times daily (irregularly) at 7.30am and 2pm. No vehicles are permitted to enter or exit. Coordination for international organisations to enter the area has been problematic. The IDF requires prior coordination in order to bring goods into the area.
- During the week, two to three persons each day were prevented from entering the area despite having proper documentation. A person with heart problems was denied exit for five days, despite a referral letter from an UNRWA doctor, to go to the hospital in order to receive treatment.
- 18 and 19 May: The gate was closed from Wednesday morning until Thursday afternoon.
- For approximately 25 days now neither empty nor full cooking gas bottles have been allowed out of or been allowed into the area.
- Other goods (including fuel) are now only allowed to be taken in during the afternoon opening hours.

Al-Mawassi:

 IDF restrictions remain, with the entry-exit gate at AI Tuffah checkpoint generally open twice daily for limited numbers of AI Mawassi ID holders - from approximately 8am to 1pm, and 2.30pm to 5pm. Males aged 16 to 25 years who are AI Mawassi ID holders are required prior coordination to pass though AI Tuffah checkpoint. Vehicles are not allowed to pass, with some exceptions given for international agencies that have undertaken prior coordination with the IDF.

• Tel Es-Sultan checkpoint remained closed since 14 January 2004.

Al-Ma'ani:

- Since 20 July 2002, the IDF has prevented all vehicular movement in and out of the Palestinian area adjacent to the Kfar Darom settlement. The IDF has also erected a fence around the area. The area remains a closed military zone, following a suicide attack on 27 February 2004.
- Movement is restricted by the IDF with the entry-exit gate generally open four times daily for Al Maa'ni ID holders only from 6.30am to 7.30am, 10.30am to 11.30am, 1pm to 2pm, and 4pm to 5pm.

Abu Nahiya:

• A fence was placed around the Abu Nahiya area, south of Kfar Darom settlement, in the corner of Kissufim Road and Salah Eddin Street. Approximately 16 families reside in the area. No vehicles are allowed in and out of the area. The fence is open 24 hours for residents.

Abu al-Ajin Area:

• Several Palestinian families live isolated and fenced in north and south of Kissufim Road in the Abu al-Ajin area. The families have their own key to the gate in the fence; however their movement is restricted to opening hours three to four times daily. The area is unreachable by vehicles.

Method and Sources

The information used to compile these Briefing Notes comes from a range of sources with a field presence in the West Bank and Gaza. The accuracy of the reported information is ensured through the corroboration of reports by two additional sources. Typically, the OCHA Field Coordination Unit (FCU) receives an initial incident report from a source, which is verified through visits to the incident site in addition to further corroboration with a third source, such as an NGO. In addition, OCHA FCU collects military orders as documentary evidence and provides information on incidents witnessed in person.

In the interests of timeliness and readability, the sources are not listed for each incident within the texts of the report. Listed below are the sources relied upon each week in compiling this Briefing:
