# The Enclosed Areas in the Gaza Strip: As-Seafa:

- Since 13 February 2005, the IDF has permitted Palestinians aged 30 and older residing in As-Seafa to pass in and out without any prior coordination; males and females aged between 16 and 30 are still required to have 48-hours prior coordination. The gate is open two times daily (irregularly) at 7.30am and 2pm. No vehicles are permitted to enter or exit. Coordination for international organisations to enter the area has been problematic. The IDF requires prior coordination in order to bring goods into the area; people are still facing difficulties getting their belongings into and/or out of the area, despite approved coordination.
- During the week, two to three persons were prevented daily from entering the area despite having proper documentation.
- 29 May: the IDF allowed cooking gas bottles into the area. This is only allowed during the afternoon opening hours.

#### Al-Mawassi:

 IDF restrictions remain, with the entry-exit gate at AI Tuffah checkpoint generally open twice daily for limited numbers of AI Mawassi ID holders - from approximately 8am to 1pm, and 2.30pm to 5pm. Males aged 16 to 25 years who are Al Mawassi ID holders are required prior coordination to pass though Al Tuffah checkpoint. Vehicles are not allowed to pass, with some exceptions given for international agencies that have undertaken prior coordination with the IDF.

- Tel Es-Sultan checkpoint remained closed since 14 January 2004.
- About 100 persons are allowed into Al-Mawassi each day. Dozens of people experience lengthy delays as they try to enter.

#### Al-Ma'ani:

- Since 20 July 2002, the IDF has prevented all vehicular movement in and out of the Palestinian area adjacent to the Kfar Darom settlement. The IDF has also erected a fence around the area. The area remains a closed military zone, following a suicide attack on 27 February 2004.
- Movement is restricted by the IDF with the entry-exit gate generally open four times daily for Al Maa'ni ID holders only from 6.30am to 7.30am, 10.30am to 11.30am, 1pm to 2pm, and 4pm to 5pm. Access for international organizations into the area remains problematic.

#### Abu Nahiya:

 A fence was placed around the Abu Nahiya area, south of Kfar Darom settlement, in the corner of Kissufim Road and Salah Eddin Street. Approximately 16 families reside in the area. No vehicles are allowed in and out of the area. The fence is open 24 hours for residents.

# Abu al-Ajin Area:

 Several Palestinian families live isolated and fenced in north and south of Kissufim Road in the Abu al-Ajin area. The families have their own key to the gate in the fence; however their movement is restricted to opening hours three to four times daily. The area is unreachable by vehicles.

# 6. Additional Protection Issues

- During the week a total of 16 missiles and mortar shells were fired at Israeli targets in the Gaza Strip. Also, a roadside bomb was activated near an IDF troop patrolling on the border fence with Egypt. No injuries reported.
- **26 May:** According to the village council in At Tuwani, south of Hebron Governorate, settlers from the Ma'on settlement stole 13 sheep belonging to a farmer from the nearby hamlet of Maghayir al Abeed. A complaint was filed with the Israeli Police by the Palestinian owner.
- 27 May: IDF coastal vessels pursued Palestinian fishing boats opposite Deir El Balah beach, the Gaza Strop. The IDF fired in the direction of the Palestinian boats. No injuries were reported but one boat was damaged.
- 31 May: The IDF occupied a house in Dura, southwest of Hebron Governorate, confining the
  inhabitants to a room and using the building as an observation point. According to the Palestinian
  DCL, medical access was facilitated for one sick child, but refused for a second one suffering
  from complications from a recent mumps vaccination. As of 31 May, access was still being
  negotiated.

#### **Method and Sources**

The information used to compile these Briefing Notes comes from a range of sources with a field presence in the West Bank and Gaza. The accuracy of the reported information is ensured through the corroboration of reports by two additional sources. Typically, the OCHA Field Coordination Unit (FCU) receives an initial incident report from a source, which is verified through visits to the incident site in addition to further corroboration with a third source, such as an NGO. In addition, OCHA FCU collects military orders as documentary evidence and provides information on incidents witnessed in person.
