6. Closure²/Restrictions on movement

Tulkarm/Qalqiliya/Salfit governorates:

- In Tulkarm Governorate, the IDF maintained eased movement restrictions. Although all parts of Kafriat checkpoint remained manned during the week, no restrictions were imposed on Palestinian-plated vehicles, which in general could freely cross the checkpoint. No restrictions were imposed on Palestinians with Israeli IDs travelling to Tulkarm town. Israeli yellow-plated cars had to be parked outside the town. Since the curfew was lifted in Seida on 28 January, the IDF has kept the village under closure restricting movement in and out of the village. Earth mounds have been built in front of the entrances. A number of houses that were occupied by the IDF during the curfew remain occupied.
- In Qalqiliya Governorate, no restrictions were imposed on the local populations residing in and travelling on the eastern side of the Barrier. The tunnel between Qalqiliya town and Habla remained open for Palestinians the entire week. No restrictions were imposed on Palestinians with Israeli IDs travelling to Qalqiliya town.
- 18 January: The IDF introduced new electronic checking procedures at the Barrier gate into Azzun Atma in Oalgiliya Governorate. These procedures have caused delays for residents, teachers and school children in particular.
- In Salfit District, movement between the villages continues to be hampered by the existence of road blocks and earth mounds and the restrictions to travel on the main roads. Three road blocks/earth mounds in particular near Kafr Dik, Qarawat Bani Hassan and Yasuf severely hamper movement.

Nablus/Jenin/Tubas governorates:

- 26 January: The IDF removed earth mounds at the main entrance of Beita village, Nablus District.
- 26 January to date: Long delays were experienced at Tayasir gate, Tubas District.
- 26 January to date: The IDF set up flying checkpoints on Road 60 near Al Lubban ash Sharqiya village, Nablus
- 29 January: The IDF closed Beit Iba checkpoint, Nablus city, for more than three hours preventing Palestinians movement in and out of the city. The closure was due to a suspicious vehicle parked in the area.
- 31 January: The IDF set up a flying checkpoint at the main entrance of Burin village, Nablus District, impeding the movement of residents travelling in and out of the village.
- 31 January: A four member group from the World Council of Churches was denied access to Nablus at Huwwara checkpoint.

- The partial checkpoint at Atara Bridge operated on a daily basis throughout the week during the morning and late afternoon rush hours. According to the Palestinian DCL, long delays were reported.
- Long delays were reported at An Nabi Salih gate throughout the week. On 30 January, the IDF stopped all cars going through the gate.
- The IDF set up a checkpoint at the entrance to 'Abud on almost a daily basis during the morning and late afternoon rush hours.

^{1 4} dunums = 1 acre; 10 dunums = 1 hectare

Jerusalem/Jericho governorates:

- IDF mobile checkpoints function on a daily basis at the entrance to Al 'Eizariya-Ma'ale Adumim settlement resulting in delays.
- IDF mobile checkpoints at the junctions of Road 1-Road 437 and Al 'Eizariya-Ma'ale Adumim have stopped Palestinian vehicular movement on Road 1 for several hours every Saturday after Shabath.
- Palestinian pedestrian movement from the Abu Dis area to Jerusalem has become increasingly more difficult since
 Israeli Border Police have been stopping Palestinians daily at the Monastery gate. Access to education, health and
 other services in East Jerusalem to Palestinians holding West Bank ID cards is denied by the Israeli Border Police.
- 23 January: Starting on this date, the Jericho DCO checkpoint will be open until 12am for Jericho residents and Palestinians with Jerusalem IDs. Palestinians from West Bank are still not allowed to enter Jericho unless they are travelling to Jordan and can provide the necessary documents.

Jerusalem Barrier:

- North: Construction of the Barrier is continuing along Road 60, the main road, between Qalandiya and Ar-Ram checkpoints. Land levelling and construction of the Barrier are also taking place alongside the road between Hizma and Anata villages, as well as north of Neve Ya'akov and south of Pisgat Ze'ev settlements. Concrete slabs were constructed along the road near Hizmah checkpoint and the road to Jaba.
- East: The IDF has closed the area known as the Gate near Al 'Eizariyy Ras Al Amoud. Palestinians currently use the Monastery gate where Israeli Border Police are present to check for permits. Construction of the Barrier is continuing in Ash Sheikh Sa'ad, Sawahriya ash Sharqiya, Abu Dis, and Al 'Eizariyya. Construction is nearly completed from the Mount of Olives to the hill just south of Al Quds University in Abu Dis. Barrier construction in Sur Bahir started in the beginning of January on the eastern and southern side of the village.
- Northwest: Construction of the Barrier is on hold due to court decision and an appeal by the residents of Beit Ijzah and Bidu except in .in Al-Tira, where construction continued. Israeli Border Police closed the main entrance Nabi Sammuell area and people were instructed not to use the area to travel to Bir Nabalah . Instead people used the northern entrance near Beit Ijzah and the Givaat Hadasha settlement.

Hebron/Bethlehem governorates:

- **26 January**_The second bus seized by the Israeli Border Police in the village of Al Walaja (Bethlehem Governorate), has been released (The first bus was already released). The bus is currently back transporting local residents isolated by the closures imposed on the village.
- 27 January: The IDF closed the gate at the entrance of Beit Ummar village north of Hebron city for one day due to a security concern in the area.
- 1 February: The IDF closed the only access road to the village of An Nu'man; the residents had no vehicular access to the West Bank.
- During January, 2,234 permits were issued for Christians from Bethlehem to reach Jerusalem, while another 200 permits were issued for Muslims from Bethlehem to visit holy places in Jerusalem during the Eid Al-Adha feast (20 to 23 of January).

The enclosed areas in the Gaza Strip:

- As-Seafa: Since December 2004, the IDF has allowed nine people with As-Seafa IDs to go in and out on foot, for one time only, with prior coordination, in order to bring food in. These people are permitted to exit and enter through the gate at two irregular periods: approximately 6.30am to 8.30am and from approximately 3.30pm to 4.30pm. No vehicles are permitted to enter or exit. Coordination for international organisations to enter the area has been extremely problematic.
- According to an IDF order, 41 Palestinians, As-Seafa residents, were requested to submit coordination requests at least two days in advance.
- Al Mawassi: IDF restrictions remain, with the entry-exit gate at Al Tuffah checkpoint generally opening twice daily for limited numbers of Al Mawassi ID holders from approximately 8am to 1pm and from approximately 2.30pm to 5pm. Since 10 May 2004, males aged below 30 years who are Al Mawassi ID holders have been required to have prior coordination to pass though Al Tuffah checkpoint. Since 6 June 2004, prior coordination had been required for unmarried females with Al Mawassi IDs who are between the ages of 18 and 25. Women are now allowed in and out with no age restrictions. Vehicles are not allowed to pass, with some exceptions given for international agencies that have undertaken prior coordination with the IDF.
- 26 to 27 January: Al Tuffah checkpoint was closed. No entry or exit was permitted.
- 28, 29 and 30 January: Al Tuffah checkpoint was reopened for people leaving al Mawassi only, and food and other goods were allowed in.
- On 31 January: Al Tuffah checkpoint was open both directions.
- Al Maa'ni: The Palestinian area adjacent to Kfar Darom settlement was declared a closed military area following a suicide attack on 27 February 2004. Since 20 July 2002, no vehicular movement has been allowed into and out of the area and the IDF erected a fence around the area. Movement is restricted by the IDF with the entry-exit gate generally opening four times daily for Al Maa'ni ID holders only from 6.30am to 7.30am, 10.30am to 11.30am, 1pm to 2pm, and 4pm to 5pm. Access for international organisations into the area remains extremely problematic.

- Students from Abu Dis and Al 'Eizariya, East Jerusalem, are experiencing difficulties reaching schools in Jerusalem Governorate.

The Gaza Strip:

- 31 January: Palestinian officials say a 10-year-old UNRWA girl pupil died due to IDF gunfire and another girl was injured. Both girls were inside an UNRWA school in Rafah at the time of the incident. The IDF is investigating the incident.
- During the reporting period, the 24 pupils living in As-Seafa were not able to reach their schools on time. They were delayed leaving through the As Seafa gate until late morning. Upon return, the pupils were delayed for four hours before being permitted to re-enter through the gate at 3:30pm.
