1. *This report reflects information available as of the time of publication. The most updated data and more breakdowns are available at ochaopt.org/data.*
2. *In Israel, three Israelis were killed by Palestinians from the West Bank in attacks that also resulted in the killing of one Palestinian (January–December 2025); and a Palestinian was killed in an attack by Israelis in West Jerusalem in May 2025. These are counted separately, as this report covers incidents that took place in the West Bank.*
3. *Casualties in the West Bank have been documented by OCHA since 2005, settler violence since 2006, and demolitions and displacement since 2009.*
4. *Palestinians or Israelis whose immediate cause of death or the perpetrator's identity remain disputed, unclear, or unknown, are counted separately, so are casualties as a result of "friendly fire" and Palestinian prisoners from the West Bank who have died in Israeli custody. Figures also do not include UXOs, mishandling of weapons, hit-and-run incidents, internal Palestinian clashes, and incidents where the perpetrator's nationality is disputed.*
5. *The 2024 fatality figure includes one Palestinian man who was killed during an Israeli airstrike in Tubas governorate in December 2024 but whose death was verified in June 2026, when his family received official notification. His body remains withheld by Israeli authorities.*
