*Disclaimer:

1. This report reflects information available as of the time of publication. The most updated data and more breakdowns are available at ochaopt.org/data.

2. In Israel, 14 Israelis were killed by Palestinians from the West Bank in attacks that also resulted in the killing of 6 Palestinians between January 2024 and March 2025. These are counted separately, as this report covers incidents that took place in the West Bank.

3. Casualties in the West Bank have been documented by OCHA since 2005, settler violence since 2006, and demolitions and displacement since 2009.

4. Palestinians or Israelis whose immediate cause of death or the perpetrator's identity remain disputed, unclear, or unknown, are counted separately, so are casualties as a result of "friendly fire" and Palestinian prisoners from the West Bank who have died in Israeli custody. Figures also do not include UXOs, mishandling of weapons, hit-and-run incidents, internal Palestinian clashes, and incidents where the perpetrator's nationality is disputed.

****Disclaimer:** March displacement and returnee figures due to Israeli forces operations in Jenin, Tulkarm, Nur Shams, and El Far'a refugee camps are valid as of 28 February 2025 according to UNRWA estimates. In March 2025, UNRWA launched an IDP registration platform. Displaced refugees' data is being collected and verified, which will be the basis for reporting IDP figures in April and onward. Charts in this section do not include property destruction within the context of operations between January and March 2025; this information will be added in the future once related assessments can be carried out, should security and access conditions permit. The situation in the northern West Bank remains fluid and numbers may be adjusted as new information becomes available.
