BACKGROUND

Longstanding restrictions on the movement of people and goods to and from Gaza have undermined the living conditions of 1.8 million Palestinians in Gaza. Many of the current restrictions, originally imposed in the early 1990s, were intensified after June 2007, following the Hamas takeover of Gaza and the imposition of a blockade by Israel. These restrictions have reduced access to livelihoods, essential services and housing, disrupted family life, and undermined the people’s hopes for a secure and prosperous future. The situation has been further compounded by the restrictions imposed since June 2013 by the Egyptian authorities at Rafah Crossing, which had become the main crossing point used by Palestinians in the Gaza Strip given the above restrictions on the Israeli-controlled crossings.

MOVEMENT AND ACCESS OF PEOPLE*

EREZ CROSSING

- Erez crossing was open for 26 days during daytime (8:00 - 19:00), as scheduled, except for one day (7 June) when it was closed for several hours due to security reasons.
- Crossings through Erez more than doubled since the beginning of the year.
- Accessible only to permit holders, primarily medical and other humanitarian cases, merchants, and aid workers.
- Permits issued by Israeli authorities.

RAFAH CROSSING

- Rafah crossing opened for 10 days during June for people entering and exiting Gaza.
- June registered the highest number of people crossed through Rafah since October 2014.
- The crossing has been closed for all but 25 days since 24 October 2014, reportedly as a result of insecurity in the Sinai.
- The closure of the crossing is affecting at least 30,000 Palestinians registered to cross through.

MOVEMENT OF GOODS FROM AND INTO GAZA

EXIT OF GOODS

- Operated on 21 days for exit of goods from Gaza.
- 113 truckloads of goods exited Gaza in June:
  - 34 truckloads transferred to West Bank markets.
  - 31 truckloads exported to Israeli markets.
  - 48 truckloads exported to international markets.
- Kerem Shalom crossing is the solely operating crossing for goods.
- Opens during daytime (08:00 - 19:00).

* The figures reflect number of times people crossed, but not the actual number of people crossing.

Information on the status of border crossings and numbers of truckloads is based on data provided by the Gaza Ministry of National Economy, UNRWA, UNESCO and Paltrade (Palestine Trade Center).
