GAZA CROSSINGS’ OPERATIONS STATUS: MONTHLY UPDATE - DECEMBER 2017

BACKGROUND

Longstanding restrictions on the movement of people and goods to and from Gaza have undermined the living conditions of approximately two million Palestinians in that area. Many of the current restrictions, originally imposed by Israel in the early 1990s, were intensified after June 2007, following the Hamas takeover of Gaza and the imposition of a blockade. These restrictions continue to reduce access to livelihoods, essential services and housing, disrupt family life, and undermine people’s hopes for a secure and prosperous future. The situation has been compounded by the restrictions imposed since June 2013 by the Egyptian authorities at Rafah Crossing, which had become the main crossing point used by Palestinian passengers in the Gaza Strip, given the restrictions on the Israeli-controlled crossings. On 1 November 2017, pursuant to the Palestinian reconciliation agreement reached on 12 October, the Hamas authorities handed over control of the Gaza side of the Erez, Kerem Shalom and Rafah crossings to the Palestinian Authority; a Hamas-run checkpoint that controlled access to the Erez crossing (“Arba’ Arba’am”) was dismantled.
