East Jerusalem

Barrier

In East Jerusalem, the Barrier divides Palestinian neighbourhoods from each other and from the urban centre, resulting in diminished services, increasing lawlessness, impeded access and uncertain residency status.

Over 130,000 Jerusalem ID holders are walled out from the urban centre.

Approximately 1,400 West Bank residents in 17 communities have been placed on the ‘Jerusalem’ side of the Barrier, but are denied residency and access to work and services in East Jerusalem.

Residency, Planning, Zoning & Demolitions

Due to inadequate planning, and extreme difficulty in obtaining building permits, Palestinian residents of East Jerusalem face a serious shortage in housing, leaving residents with no choice other than to build structures ‘illegally’ and risk demolition.

Over 14,600 Palestinians have had their Jerusalem residency revoked by the Israeli authorities, since 1967 due to their lack of a secure legal residency status.

At least 33% of all Palestinian homes in East Jerusalem lack building permits.

Only 13% of East Jerusalem is zoned for Palestinian construction, much of which is already built up.

Over 1,700 houses and other structures in East Jerusalem have been demolished since 2000. Over the last 10 years, nearly 7,000 people have been displaced or affected as a result.

Over 100,000 residents are at potential risk of displacement.

EAST JERUSALEM

UN position on East Jerusalem

Israel’s annexation of East Jerusalem is not recognized by the international community. The UN Security Council has declared in numerous resolutions (inter alia, resolutions 252, 267, 471, 476 & 478) that all legislative measures and actions taken by Israel to alter the character and status of Jerusalem are null and void. The legal situation in the West Bank, including East Jerusalem, remains one of belligerent military occupation.

Summary by Community

Approximately 200 Palestinian households in East Jerusalem are at risk of forced displacement due to eviction cases filed against them, mostly by Israeli settler organizations. The Old City, Silwan and Sheikh Jarrah are the most affected neighbourhoods.
